
ANZBMS PLENARY POSTER LISTING

Sharon Brennan-Olsen

Self-reported and symptom-based arthritis prevalence according to age, sex and social disadvantage in six low and middle income countries: The World Health Organization Study on global AGEing and adult health (SAGE) Wave 1 *abs# 265*

Cameron Britton

The changing presentation of Paget's disease of bone in a high-prevalence region *abs# 266*

Jacques Brown

Relationship Between Total Hip BMD T-score and Incidence of Nonvertebral Fracture With up to 8 Years of Denosumab Treatment *abs# 267*

Karim Burkhardt

Anabolism versus antiresorption (AVA Study): a comparison of the mechanism of action (MOA) of teriparatide (TPTD) and denosumab (DMAb) in postmenopausal women with osteoporosis using quadruple fluorochrome labeled bone histomorphometry *abs# 268*

Audrey S Chan

The extreme C-terminus of PTHR encodes the key molecular determinants for PTHR-SNX27 interaction and trafficking *abs# 269*

Amy T Harding

Is proximal femur geometry from DXA-derived 3D analysis predictive of pQCT-derived geometry of the tibia *abs# 270*

Tomoka Hasegawa

Histochemical examination on calcification in bone and arteries in *kl/kl* mice and *aklotho*^{-/-} mice fed with phosphate-insufficient diet *abs# 271*

Kazuhiro Ikeda

Mitochondrial respiratory supercomplex assembly-promoting factor COX7RP regulates bone metabolism in mice *abs# 272*

Yasumasa Irie

Matrix Vesicle miR-125b Suppress Osteoclast Formation by Targeting *Prdm1* *abs# 273*

Manabu Kawata

Regulation of limb development by p63 *abs# 274*

Conor Lambert

Relationship of lifetime bone-specific physical activity to proximal femur geometry from DXA-derived 3D analysis *abs# 275*

Yuma Makii

Transcription factor HIF-2alpha is expressed in superficial zone of articular cartilage, and contributes to joint homeostasis *abs# 276*

Egon Perilli

Synchrotron micro-CT time-lapsed imaging of the human femur microstructure under load *abs# 277*

Sachiko Shiba

Female mice lacking estrogen receptor-binding fragment-associated antigen 9 display decreased bone mineral density *abs# 278*

Takeshi Shimoide

Roles of FKBP5, a novel factor induced by gravity change, in skeletal muscle *abs# 279*

Jumpei Shirakawa

Osteoclasts require the *Profilin1* for postnatal skeletal growth, remodeling and homeostasis *abs# 280*

Tomoyo Tanaka

Analysis of Intracellular Ca²⁺ Mobilization of Osteoid-Osteocytes and Mature Osteocytes by 3D Time-lapse Imaging in Bone *abs# 281*

Jennifer Tickner

Prostate and Testis Expressed 4 is an autocrine regulator of the osteoclast and regulates bone homeostasis *abs# 282*

Xiao-Fang Wang

Racial differences in bone length overstate differences in cortical porosity in Chinese and Caucasians *abs# 283*

Benjamin K Weeks

Vessel morphology and blood viscosity associations with bone mass in post-menopausal women *abs# 284*

Kun Zhu

Tracking of vitamin D status from childhood to early adulthood and its association with peak bone mass *abs# 285*

ANZBMS POSTER LISTING

Kent Algate

Epigenetic regulation of human osteoblasts by inhibition of histone deacetylase 5 enhances markers of bone formation *in vitro* *abs# 286*

Kristina Anevska

High fat diet increases circulating leptin levels but does not exacerbate bone deficits in male rats born small *abs# 287*

Mahmoud M Bakr

Daily PTH injections for two weeks improve woven bone parameters, availability and recruitment of osteoclasts but not overall healing of stress fractures. *abs# 288*

Belinda R Beck

Exercise for bone in the real world: Even better in translation *abs# 289*

Belinda R Beck

High intensity exercise improves geometric indices of proximal femur strength in postmenopausal women with low to very low bone mass: the LIFTMOR trial *abs# 290*

Sharon L Brennan-Olsen

Dual energy X-ray absorptiometry scans among 70+ year olds: Do reductions in out-of-pocket expenses translate to reduced fracture incidence? A population-based study *abs# 291*

Beatrice Brennan

Delay in diagnosis of pelvic and sacral fracture does not alter patient outcomes: an audit of admissions at the Canberra Hospital 2014 - 2015 *abs# 292*

Athena R Brunt

Tocopherol and ascorbic acid provide effective radioprotection of bone allograft during gamma irradiation *abs# 293*

Michael Bullen

Accuracy of peripheral quantitative computed tomography (pQCT) measurements performed through polyester and Plaster of Paris cast material *abs# 294*

Diana Cabrera

Glucocorticoids affect bone loss in OVX sheep- a pilot study *abs# 295*

Masahiro Chatani

In-vivo behaviors of pre-osteoclasts in c-fms transgenic and knock-out medaka fish *abs# 296*

Weiwen Chen

Male osteoporosis awareness in the elderly. An analysis of DXA use in Australia 1995 to 2015 *abs# 297*

Ashika Chhana

Monosodium urate crystal-induced inflammation promotes osteocyte expression of pro-resorptive and inflammatory mediators: implications for erosive gout *abs# 298*

Claire Clissold

The contribution of high alcohol consumption to fracture risk: the Geelong Osteoporosis Study *abs# 299*

Camilla P Davenport

Association between body composition and bone health in pre-school aged children with cerebral palsy *abs# 300*

Elizabeth Degabriele

Asthma status bone mineral density and bone mineral content in children *abs# 301*

Kimberly T Edwards

Roles of the intraloops and C-terminus in calcium/calcimimetic selection of G-protein dependant signalling pathways from the calcium-sensing receptor *abs# 302*

Ali Ghasem-Zadeh

Sexual and Racial Dimorphism in bone microarchitecture requires adjustment of the region of interest for skeleton dimensions *abs# 303*

Darci Green

The association between lean tissue mass and the risk for bowel cancer *abs# 304*

Mohammadhossein Hassanshahi

Flavonoid genistein protects bone marrow sinusoidal blood vessels and enhances their recovery following methotrexate therapy in rats *abs# 306*

Kara L Holloway

The ageing, chronic disease and injury study: epidemiology of emergency department presentations from community falls across Western Victoria *abs# 307*

Sarah Hosking

Health literacy and the agreement between osteoporosis defined by self-report versus bone mineral density results in older women *abs# 308*

Alice Huang

Calcium-sensing receptor (CaSR) regulated gene transcription *abs# 309*

Soelaiman Ima-Nirwana

Anatto-derived tocotrienol enhance cell differentiation but not cell proliferation on murine preosteoblast MC3T3-E1 cells *abs# 310*

Nao Inaba

Effect of mechanical repetitive stimulation on rat calvarial osteocyte-like cells *abs# 311*

Charles Inderjeeth

Fracture liaison service (FLS) implemented in a metropolitan tertiary centre improved treatment and recurrent fracture rates by 12 months *abs# 312*

Charles Inderjeeth

Hospital utilisation, cost and mortality outcomes of hip and non-hip osteoporotic fractures in Western Australia: a ten-year study using linked administrative data *abs# 313*

Julie Jurczykuk

Mevalonate kinase deficiency leads to decreased Prenylation of Rab GTPases *abs# 314*

Jacob Kenny

Identification of genes regulating osteoarthritis development using a mouse phenotype library *abs# 315*

Lisa Kidd

The use of serial bone biopsies to investigate phosphorus deficiency in growing, pregnant and lactating cattle *abs# 316*

Jeff Kruk

Effect of antidepressants on mesenchymal stem cell differentiation *abs# 317*

Shinichiro Kuroshima

Effect of transplantation of adipose-derived regenerative cells on impaired tooth extraction healing and bone marrow microenvironment *abs# 318*

Akira Kurozumi

IL-6/STAT3 pathway is critically involved in vascular calcification via histone modification of the RUNX2 promoter in human vascular smooth muscle cells. *abs# 319*

Melissa H Lee

Atypical femoral fractures associated with denosumab use and prolonged bisphosphonate therapy: a legacy effect of bisphosphonates or a true effect of denosumab? *abs# 320*

Nele F Lenders

A curious case: cutaneous calcinosis with refractory osteoporosis and hypocalcaemia *abs# 321*

Jian-ming Lin

Inhibition of osteoclastogenesis by the fatty acid analogue triazolyl-PA *abs# 322*

Xuzhu Lin

Hindlimb immobilisation, but not castration, induces reduction of undercarboxylated osteocalcin associated with muscle atrophy in rats *abs# 323*

Masaki Matsushita

Clinically attainable concentration of meclozine has a potent effect on promoting bone growth in achondroplasia *abs# 324*

Natalie Marijanovic

Bone Mineral Density In Diabetes And Impaired Fasting Glucose *abs# 325*

Frances Milat

Endocrine comorbidities are common in young adults with minimal trauma hip fracture *abs# 326*

Makoto Morikawa

Seasonality in bone metabolism of auditory ossicles and long bones in the primate *Macaca fuscata abs# 327*

Tuan V Nguyen

Use of comorbidities network for predicting fracture risk *abs# 328*

Takatsugu Oike

Establishment and characterization of an auto-inflammatory disease model in mice *abs# 329*

Shoko Onodera

Gorlin Syndrome iPS cells demonstrate strong activation of Hedgehog, WNT and BMP pathways in Osteogenesis. *abs# 330*

Renee T Ormsby

Osteocytes and their role in wear particle induced periprosthetic osteolysis *abs# 331*

Julie A Pasco

Personality disorders and bone: Geelong Osteoporosis Study (GOS) *abs# 332*

Julie A Pasco

Sarcopenic obesity in older men: the Geelong Osteoporosis Study *abs# 333*

Young Eun Park

Direct effects of orexin A and B on bone metabolism *in vitro abs# 334*

Sabashini Ramchand

Oestradiol depletion in premenopausal women with non-metastatic breast cancer is associated with severely deteriorated cortical and trabecular microstructure *abs# 335*

Pamela Rufus

Microindentation testing of tibial bone using the OsteoProbe®: a feasibility study *abs# 336*

Akiko Saito

Analyses of osteogenic differentiation in iPS cells derived from cleidocranial dysplasia patients *abs# 337*

Muneteru Sasaki

Combination effect of implant design and mechanical load on osteocytes around dental implants in rabbit tibiae *abs# 338*

Sunderajhan Sekar

Saturated fatty acids differentially affect the development of obesity and osteoarthritis *abs# 339*

Angela Sheu

How low can you go: bone metabolism in chronic kidney disease *abs# 340*

Angela Sheu

Persistent hyperparathyroidism following renal transplantation: where to now? *abs# 341*

Julia Shrosbree

Oral lesions in an immunosuppressed patient on antiresorptive therapy for osteoporosis: a diagnostic conundrum *abs# 342*

Alexandra J Shoubridge

Peroxidases and their role in promoting bone repair and regeneration *abs# 343*

Mei Lin Tay

A novel collagen scaffold for improved tendon-bone healing *abs# 344*

Dian A Teguh

Investigating the pharmacodynamics and therapeutic benefits of acetylcholinesterase inhibitors on bone cells *abs# 345*

Erika Tsuchiya

Histochemical assessment for biological interplay of endothelial cells and perivascular cell in endochondral ossification *abs# 346*

Bonnie Williams

The effect of low dose caffeic acid phenethyl ester (CAPE) on joint inflammation, bone loss and gastrointestinal inflammation in a collagen antibody-induced arthritis (CAIA) murine model *abs# 347*

Tania Winzenberg

Associations of dietary patterns with bone mass, muscle strength and balance in a cohort of Australian middle-aged *abs# 348*

Veronica Wong

Hypercalcaemia of immobility: a state of increased bone turnover *abs# 349*

Lan Xiao

The role of sphingosine-1-phosphate in infection-induced bone loss *abs# 350*

Yinghong Zhou

MSCs regulate host cell recruitment and immune response during osteogenic differentiation *abs# 351*

ESA POSTER LISTING

Gregory Conductier

Plasticity in input to kisspeptin (Kiss) neurons in the hypothalamus of the ewe explains the hypogonadotropic condition caused by reduced body weight *abs# 352*

Kathryn L Gatford

Pulsatile GH profiles in the pregnant mouse reveal marked increases in circulating GH and GH secretion between early and mid-pregnancy *abs# 353*

Adrian Herington

Proteolysis of ephb4 in prostate cancer produces a bioactive intracellular domain fragment *abs# 354*

Rasha RM Mosa

Effects of growth hormone secretagogue receptor agonist and antagonist in non-obese type 2 diabetic MKR mice *abs# 355*

Joseph Garcia Redmond

Biobanking and pituitary whole exome sequencing: a pilot study *abs# 356*

Kerry Richard

Sex hormone binding globulin modifies testosterone action and metabolism in prostate cancer (LNCaP) cells *abs# 357*

Zarqa Saif

Regulatory effects of GR Exon 1 variants on differential placental glucocorticoid receptor protein isoform in pregnancies complicated with Asthma *abs# 358*

Azni Abdul-Wahab

ACTH-dependent Cushing's syndrome: a single centre experience at RMH (2001-2015) *abs# 359*

Elizabeth Atkins

Hypothyroidism in pregnancy; implications of the 2016 updated guidelines for the Monash Health Endocrine in Pregnancy Clinic *abs# 360*

Kathryn Berkman

Metachronous pheochromocytoma in a young woman with von Hippel Lindau disease: when to act and when to wait? *abs# 361*

Elisa K Bongetti

False negative Ga⁶⁸-DOTA-exendin-4 PET/CT in a patient with occult insulinomas *abs# 362*

Kharis Burns

Periodic allergy *abs# 363*

Genevieve L Calder

Aceruloplasminaemia: a disorder of diabetes and neurodegeneration *abs# 364*

Thora Y Chai

Stalking the diagnosis: a case of pituitary gland metastases secondary to primary lung adenocarcinoma *abs# 365*

Daniela Chan

Parathyromatosis: A rare cause of recurrent hyperparathyroidism *abs# 366*

Yee -Ming Melody YM Cheung

Zoledronic acid use in non-PBS eligible individuals: experience in a tertiary hospital *abs# 367*

Sheila J Cook

Petrified ears: Bilateral Auricular Ossification is a rare complication of Addison's Disease *abs# 368*

Gabrielle Crisp

Ghrelin-reactive autoantibodies are elevated in children with Prader-Willi Syndrome compared to unaffected sibling controls *abs# 369*

Christopher Cunningham

Androgen deprivation therapy leads to a selective loss of leg muscle volume *abs# 370*

Peter Davoren

Hypopituitarism presenting as subarachnoid haemorrhage *abs# 371*

Naomi Eastwood-Wilshere

A real case of Pseudohypoparathyroidism *abs# 372*

Sharath Heggodu Devappa

Accuracy of pre-operative localisation studies and correlation with histopathological and surgical findings in primary hyperparathyroidism *abs# 373*

Tim Heise

Day-to-day consistency was observed in the greater early glucose-lowering effect of faster-acting insulin aspart *abs# 374*

Tim Heise

Compatibility and safety of faster-acting insulin aspart used in continuous subcutaneous insulin infusion therapy in patients with type 1 diabetes *abs# 375*

Nestor Ho

Factors affecting treatment outcome of radioactive iodine ablation and prescribing habits of Australian clinicians *abs# 376*

Alice Hong

Temporal trends in thyroid dysfunction and the impact of iodine fortification in the Tasmanian population (1994-2014) *abs# 377*

Thaw TH Htet

The accuracy of information for lifestyle management on websites for the management of PCOS *abs# 378*

Thaw TH Htet

A retrospective analysis of the impact of new diagnostic criteria for Gestational Diabetes Mellitus on the endocrinology service at a tertiary hospital *abs# 379*

Claudia Hurwitz

The improved ability to measure testosterone at lower concentrations with liquid chromatography tandem mass spectrometry may not translate to a clinical difference in women presenting with infertility *abs# 380*

Fiona A Inchley

Thyroid hormone resistance clinical challenges and genetics *abs# 381*

Elena R Jackson

Utility of FDG-PET imaging in risk stratification of pancreatic neuroendocrine tumours related to MEN1 *abs# 382*

Sandya Jalapu

Cushing's syndrome- coincidence or Cure *abs# 383*

Pieter M Jansen

CNS metastatic spread of an ACTH secreting pituitary adenoma: when do you call it carcinoma? *abs# 384*

Shan Jiang

Erlotinib-induced Increase in Thyroxine Requirements *abs# 385*

Shalini Kunasegaran

An unusual case of Cushing's syndrome due to a bihormonal ACTH-Prolactin secreting pituitary macroadenoma with rapid response to cabergoline *abs# 386*

Aminath Laafira

IGF-1 assay – life after “death” of Siemens Immulite? *abs# 387*

Nicole Lafontaine

A case report of diabetes insipidus in Langerhans Cell Histiocytosis *abs# 388*

Joel Lasschuit

Recalcitrant calcium *abs# 389*

Sandra Lin

Contributing factors to increased mortality in men undergoing long-term androgen deprivation therapy *abs# 390*

Meilun Ly

Impact of substantial weight loss on thyroid function in obese women planning pregnancy *abs# 391*

Natalie Marijanovic

Bone mineral density in diabetes and impaired fasting glucose *abs# 392*

Josephine McCarthy

Neonatal complications of Graves' disease in pregnancy *abs# 393*

Emily J Meyer

Cavernous internal carotid artery aneurysm: a rare cause of marked hyperprolactinaemia *abs# 394*

Joseph Montalto

Diagnosis of late-presenting 11 β -hydroxysteroid dehydrogenase deficiency Type 2 (11 β HSD2) by gas-chromatography/mass-spectrometric profiling of urinary cortisol metabolites. *abs# 395*

Lisa J Moran

Weight management practices associated with Polycystic Ovary Syndrome and their relationships with diet and physical activity *abs# 396*

Anna Mossman

The management of refractory catecholamine associated symptoms in malignant pheochromocytoma *abs# 397*

Negar Naderpoor

Serum 25-hydroxyvitamin D level is not associated with glomerular filtration rate in a young healthy population *abs# 398*

Pratyusha Naidu

A rare cause of familial hyperparathyroidism *abs# 399*

Hui Yi Ng

Insulinoma: a rare cause of hypoglycaemia *abs# 400*

Crystal E O'Neill

A rare case of thyroid hemigenesis *abs# 401*

James Robinson

Predicting the response to antithyroid medication in Graves' disease in a Tasmanian population *abs# 402*

Katherine Robinson

The temporal profile of adiponectin in healthy human subjects: a comparison with additional inflammatory and endocrine markers. *abs# 403*

Amanda Seabrook

Bone cysts and an atraumatic fracture in a young woman *abs# 404*

Matthew Seymour

"Why is everything so dark?" - dimming of vision and more in a young mother *abs# 405*

Nisa Sheriff

TrACcing the tumour *abs# 406*

Nisa Sheriff

An AIP-positive R304X man with genetically and histologically distinct synchronous GH-secreting adenomas *abs# 407*

Angela Sheu

Persistent hyperparathyroidism following renal transplantation: where to now? *abs# 408*

Angela Sheu

How low can you go: bone metabolism in chronic kidney disease *abs# 409*

Nely Shrestha Khatri

Serial Thyroid Stimulating Immunoglobulin in response to anti-thyroid treatment *abs# 410*

Jennifer Snaith

An assessment of adequate hypoglycaemia and safety of the insulin tolerance test *abs# 411*

Madeline Spooner

Cushing's syndrome in pregnancy: A diagnostic and management conundrum *abs# 412*

Jessica L Stranks

High-dose denosumab provides symptom control in familial expansile osteolysis *abs# 413*

Chee Tang

A case report of a man with adult -onset idiopathic hypogonadotropic hypogonadism *abs# 414*

Chau Thien Tay

Hyperparathyroid crisis mimicking acute myocardial infarction *abs# 415*

Chau Thien Tay

The antenatal care of a woman with thyroid hormone resistance *abs# 416*

Chau Thien Tay

Two for the price of one: Tamoxifen for treatment of breast cancer in a patient with acromegaly normalised serum IGF-1 level *abs# 417*

Stephanie Teasdale

Hyperdynamic right heart function in Graves' hyperthyroidism measured by echocardiography normalises on restoration of euthyroidism: a prospective case series. *abs# 418*

Eleanor P Thong

Vertebral fractures in a young adult – an under-reported complication of type 1 diabetes mellitus *abs# 419*

Sofia Velosa

Pneumocystis pneumonia following treatment of ectopic ACTH syndrome: a case report and literature review *abs# 420*

Janet V Warner

LC-MS/MS androstenedione measurement is essential in the investigation of PCOS *abs# 421*

Eric Watsky

Biochemical and physical function outcomes in adults with pediatric-onset hypophosphatasia treated with asfotase alfa for up to 3 years: interim results from a Phase 2 study *abs# 422*

Mimi Wong

A rare case of alternating hyperthyroidism and hypothyroidism in Graves' disease *abs# 423*

Joey Yeoh

Post-gastric bypass hyperinsulinaemic hypoglycaemia managed with bypass reversal *abs# 424*

Sharon Yeoh

Fulminant ectopic ACTH with coincident pituitary macroadenoma *abs# 425*

Louise Young

Response to lenvatinib treatment in patients with radioiodine-refractory differentiated thyroid cancer (RR-DTC) *abs# 426*

Louise Young

Incidence and timing of common adverse events in lenvatinib-treated patients with radioiodine-refractory thyroid cancer from the SELECT trial *abs# 427*

SRB POSTER LISTING

Eui-Bae Jeung

Epithelial mesenchymal transition (EMT) and differentiation for steroidogenic cell by transfection of SF1 gene into mES cells *abs# 428*

Maryam Pashaiasl

Evaluation of molecular markers, *antioxidant enzymes activity* and DNA fragmentation in *semen of infertile patients abs# 429*

Chun-Wei A Feng

An important function for an unloved and odd *Sox abs# 430*

Amgad Zaky

The relationship between global levels of DNA methylation and the determination of the pluripotent state *abs# 431*

Ursula Ciller

Leptin may modulate Leydig cell testosterone production by an alternate pathway not involving the leptin receptor *abs# 432*

Amy L Winship

Human blastocyst-secreted microRNA-661 impairs endometrial epithelial cell adhesion via mouse double minute 2 homolog (MDM2) *abs# 433*

Yu Chen

Coding and non-coding RNAs in the phallus are affected by androgen- and oestrogen-induced sex-reversal in a marsupial *abs# 434*

Wei Zhou

Developmental expression of the dynamin family of mechanoenzymes in the mouse epididymis *abs# 435*

Jessica Dudley

E-cadherin and Desmoglein-2 changes in distribution during implantation in the domestic cat (*Felis catus*) and the Fat tailed dunnart (Marsupialia: *Sminthopsis crassicaudata*) *abs# 436*

Lyndal Hulse

Transmission of chlamydia using naturally infected koala semen *abs# 437*

Tamara Keeley

Development of a fertility index for male dibblers (*Parantechinus apicalis*) through the evaluation of urine samples to determine factors associated with breeding success in captivity *abs# 438*

Monica Hartanti

Stromal development of the bovine fetal ovary *abs# 439*

Helen Irving-Rodgers

Changes in expression of genes and proteins within cellular compartments of the bovine ovary as a function folliculogenesis *abs# 440*

Bettina P Mihalas

Lipid peroxidation contributes to the ROS mediated deterioration of meiotic competency and quality of oocytes *abs# 441*

Julia-Rose Satre

Ovarian expression of COUP-TFII *abs# 442*

Jessie M Sutherland

The role of JAK/STAT signalling in understanding premature ovarian failure *abs# 443*

Stefanie J Adam

Exosomes present in maternal circulation modulates glucose metabolism in trophoblast cells under normal and diabetic conditions. *abs# 444*

Tina Bianco-Miotto

Predicting gestational diabetes mellitus (GDM) using DNA methylation profiles in maternal blood at 15 weeks' gestation *abs# 445*

Peck Y Chin

Novel non-competitive Interleukin-1 receptor antagonist protects from LPS-induced preterm delivery *abs# 446*

Rebecca L Collins

The association between cord blood neurotrophins and neurodevelopmental outcome in preterm children. *abs# 447*

Paul A Dawson

Antenatal magnesium sulphate for preterm infants does not prevent all cases of cerebral palsy. Are sulphate maintenance genes the missing link? *abs# 448*

Amy M Gratton

Steroid sulfatase mRNA is upregulated in the placenta and maternal whole blood of preterm preeclamptic women *abs# 449*

Amanda Highet

Nuclear factor (erythroid-derived 2)-like 2 (NFE2L2/NRF2) regulated antioxidant and phase II detoxification gene expression in first trimester placenta. *abs# 450*

Olivia Holland

Syncytiotrophoblast mitochondrial function is altered in preeclampsia *abs# 451*

Lan Lan

Systematic review and meta-analysis of the impact of preconception lifestyle interventions in females and males *abs# 452*

Nurul Hayati NHMZ Mohamad Zainal

Proteomic identification of placental proteins associated with subsequent allergic disease in childhood *abs# 453*

Guiying Nie

Preeclampsia is characterised by elevation of multiple soluble TGF β receptors in addition to soluble endoglin in the maternal circulation – significance and clinical implications *abs# 454*

Mark Nottle

Iodine levels in preconception and pregnancy supplements *abs# 455*

Hassendrini N Peiris

Mass spectrometric identification of eicosanoid and endocannabinoid production by human amnion tissue following stimulation with IL-1 β and anandamide. *abs# 456*

Louie Ye

Nuclear factor of activated T-cells is involved in regulation of inflammatory cytokines and soluble fms-like tyrosine kinase-1 production from human placenta *abs# 457*

Santiago T. Peña, Jr.

Tropical Summer Induces Sperm DNA Damage in Boars Which Can Be Mitigated by Antioxidant Therapy *abs# 458*

Kate A Redgrove

Dynamin 2 is essential for mammalian spermatogenesis *abs# 459*

Marcos Jr B. Valdez

Development of the right gonad from sex reversed female chicken transplanted to castrated male *abs# 460*

Jessica Walters

Characterization of the 15-arachidonate lipoxygenase enzyme in spermatozoa as a contributing factor to oxidative stress and male infertility *abs# 461*

Eliza M Colgrave

Immortalised endometrial stromal cells as a potential tool for endometriosis studies *abs# 462*

Sarah J Holdsworth-Carson

Differences in the cellular composition of small versus large uterine fibroids *abs# 463*

Sarah J Holdsworth-Carson

Expression quantitative trait loci (eQTL) approaches for understanding the genetics of endometriosis *abs# 464*

Eui-Bae Jeung

Expressions of cation transporter channel are altered by endocrine disrupting chemicals in the mouse placenta during pregnancy. *abs# 465*

Melanie K Laird

Uterine remodelling during pregnancy in the brush tail possum (*Trichosurus vulpecula*; Marsupialia) *abs# 466*

Romanthi J Madawala

Loss of a junction but not its proteins: Investigating the adherens junction of uterine epithelial cells during early pregnancy in the rat *abs# 467*

Chad Moore

Correlative light and electron microscopy: visualising the actin cytoskeleton of uterine epithelial cells in normal and ovarian hyperstimulated pregnancy *abs# 468*

Saije K Morosin

The role of the prorenin receptor ((P)RR) and soluble prorenin receptor (s(P)RR) in syncytialisation *abs# 469*

Vie Nguyen

Glucose transporter 1 (GLUT1) activity during implantation in normal and ovarian hyperstimulated rats *abs# 470*

Premila Paiva

Identification of genes differentially expressed in menstrual breakdown and repair *abs# 471*

Samantha L Rodrigues

The role of prorenin and the prorenin receptor in successful placentation *abs# 472*

Carlos Salomon

Extravillous trophoblast-derived exosomes bioactivity on endothelial cells: possible implication in the uterine spiral arterial remodelling *abs# 473*

Rebecca L Wilson

Zinc deficiency in pregnancy increases placental oxidative stress and disrupts iron transport to the fetus contributing to fetal growth restriction *abs# 474*

Sara J Edwards

Key considerations when lambing ewe lambs (hoggets) *abs# 475*

Jane E Girling

The father's perspective of menstrual concerns in young women *abs# 476*

Mark P Green

Acute exposure to environmental concentrations of the endocrine disruptor atrazine affects preimplantation bovine embryo total cell count but not development or quality *abs# 477*

Yan Li

Regulation of differential global DNA methylation levels between the ICM and trophectoderm *abs# 478*

Hanna McLennan

Calcium signalling in cattle cumulus-oocyte complexes during *in vitro* fertilisation *abs# 479*

David Greening

Insights into endometrial-embryo interaction: Modulating the endometrial epithelial proteome, secretome, and defining the role of exosomes during implantation *abs# 480*
